TRENDING PRODUCTS

The 80x120 ceramic tile is a large format size commonly used in modern and luxurious spaces. This larger size reduces the number of grout lines, creating a more seamless and uniform appearance on floors and walls. It is ideal for spacious areas such as living rooms, lobbies, hotels, and commercial environments. The large dimensions of the 80x120 tile also make installation faster and more efficient, as there are fewer rows and cuts compared to smaller tiles. These tiles provide a sleek, upscale, and contemporary look, making the space appear more open and expansive.
